# Department of Education Change

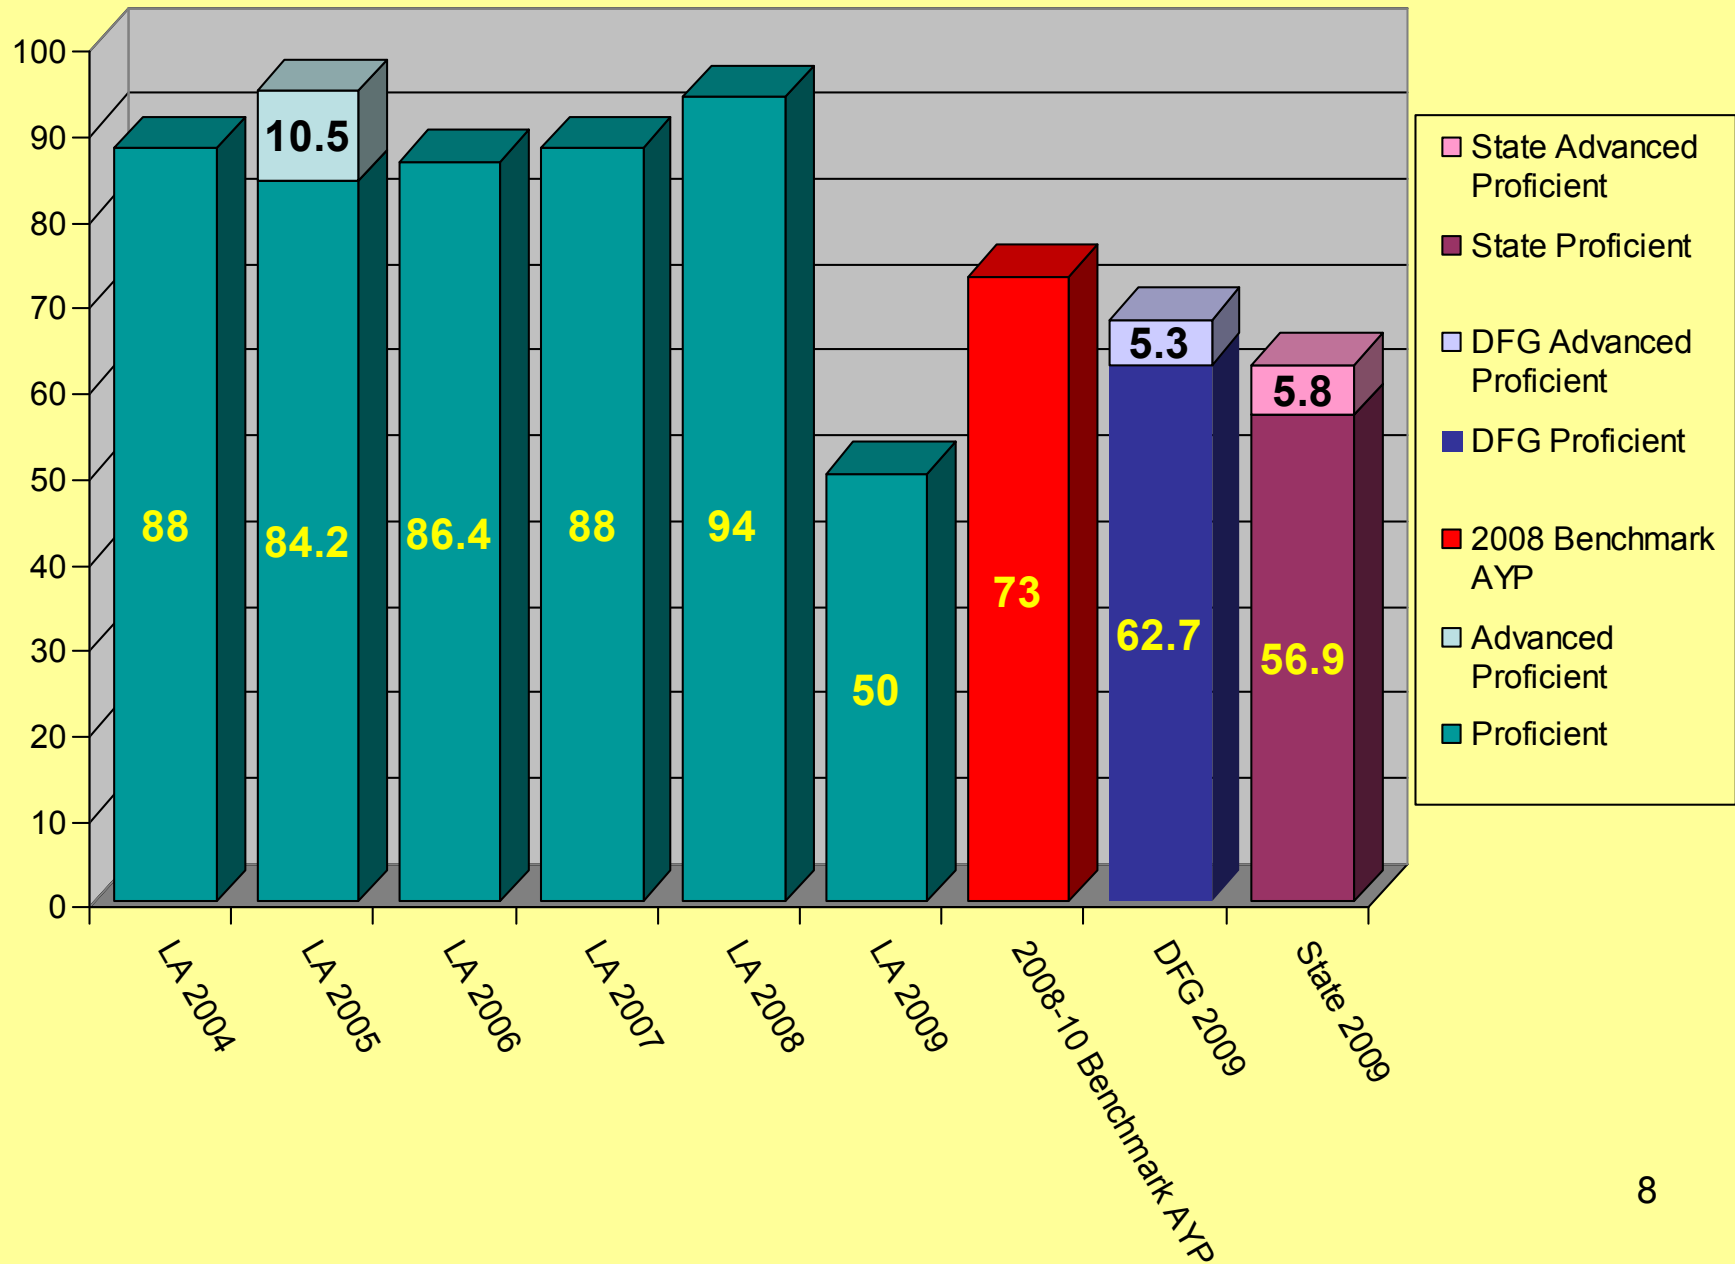

In the summer of 2008, the NJDOE decided that the criteria for proficiency on the Spring NJASK Grades 5-8 standardized testing was not rigorous enough and established a new threshold for proficiency.

In Spring 2009, Grades 3 and 4 criteria were adjusted to the same rigorous standards for proficiency as Grades 5-8.

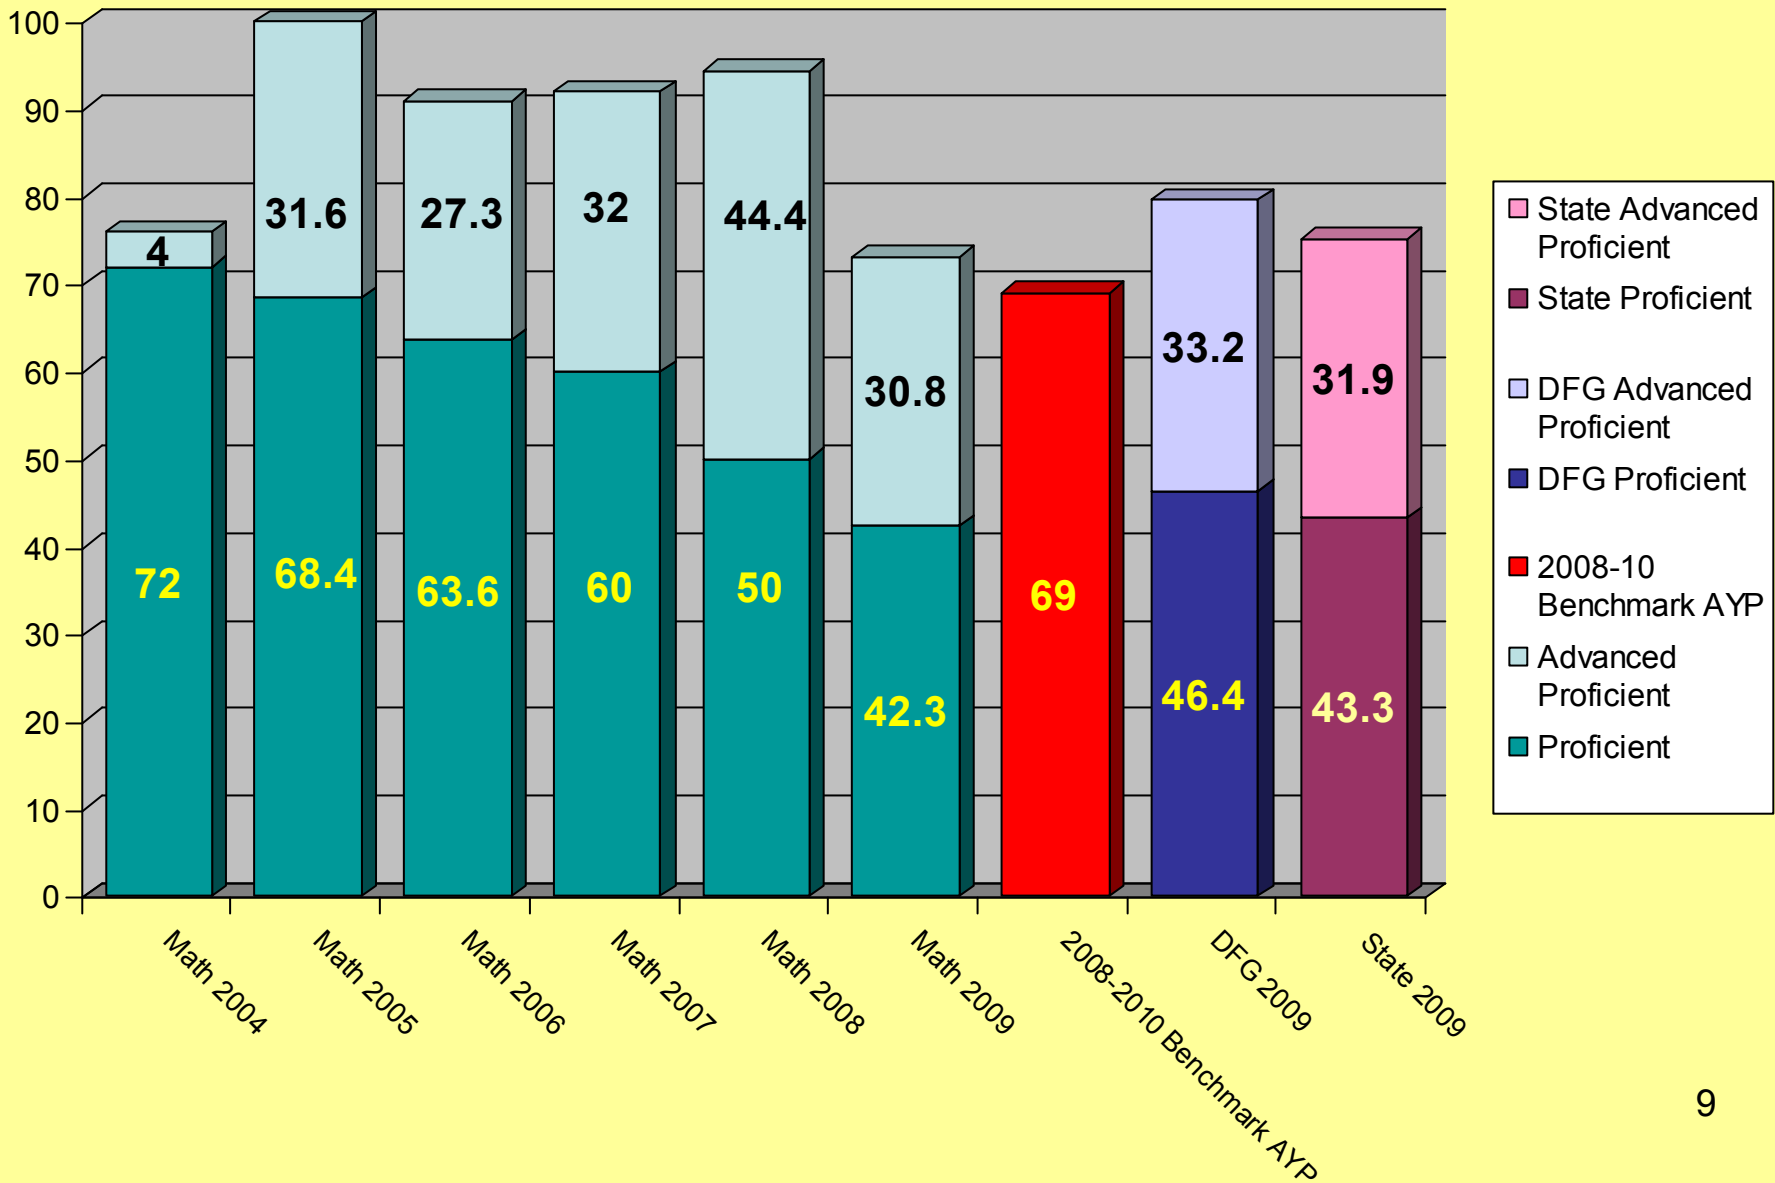

# Ranges for Proficiency

- Partially Proficient      100-199
- Proficient                      200-249
- Advanced Proficient      250-300
